J. Dumoulin (UGE) J-L Manceau (UGE) T. Toullier (UGE)

Qirt Short courses

In addition to the main technical program, the conference will be complemented by one-day short courses on Monday, 4th July 2022, taking place in the conference center at FIAP.

GENERAL INFORMATION

Website

The <https://qirt2022.sciencesconf.org/> website has been prepared for the conference.

All news and updates will appear on this page.

Fees (VAT included)

Regular Full - Early bird:

until 31st May 2022: 600.00 €*
from 1st June 2022: 700.00 €*
Students :

300.00 €* (Early Bird)

350.00€* (Full from 1st June 2022)

QIRT Short Courses: 160.00 €

*including all conference activities,

conference dinner, lunch and refreshments

Cancellation
by 31st May 2022: 50 % of participation fee
from 15th June 2022: no refund possible

Local Organisation

Conference Secretariat
Ms. Edith Blin | Inria | France
E-mail: edith.blin@inria.fr

Local Programme Organiser

Dr. Jean Dumoulin | Université Gustave Eiffel | France
E-mail: jean.dumoulin@univ-eiffel.fr

Venue

FIAP Jean Monnet
30 Rue Cabanis
75014 Paris | France

Hotel Reservation

We will arrange special conditions in different hotels. Information and booking informations will be put at the conference website.

For inexpensive accommodations, a specific arrangement for rooms will be proposed with FIAP Jean Monnet. Informations will be put at the conference website.

FINAL ANNOUNCEMENT

CALL FOR PAPERS

QIRT'2022

16th Quantitative InfraRed Thermography conference

4th – 8th July 2022 in Paris, France

Final dates for abstract submission & acceptance

We cordially invite all experts, users, scientists, young researchers and students being active or interested in the field of quantitative thermography to attend the 16th Quantitative InfraRed Thermography Conference (QIRT'2022). The conference will take place in Paris, at FIAP Jean Monet, close to historical centres and public transportation systems.

This year, the conference is organised by the University Gustave Eiffel (UGE), University Paris-Est Créteil (UPEC) and the National Institute for Research in Digital Science and Technology (Inria). The organisers are strongly supported by the Steering Committee of the QIRT community, by the International Scientific Committee and by the Local Organising Committee. The conference will be complemented by QIRT Short Courses, by an exhibition where the newest infrared thermography equipment will be presented and by a social program.

We are looking forward to your interesting and innovative contributions, which will contribute to scientific and technical presentations, posters and fruitful discussions.

On behalf of the Local Organizing Committee

Dr. Jean Dumoulin & Dr. Laurent Mevel & Pr. Laurent Ibos

Exhibition

A vendor exhibition will complement the technical presentations.

The price for 1 standard booth of 6 m² (incl. 1 table, 2 chairs, standard plug, W-LAN, 1 poster wall (on request)) is **1,500 € plus Value Added Tax (VAT)**.

For each booth one conference ticket with full conference participation will be provided.

The number of booths is limited. They will be assigned on a first come, first serve basis.

Book your booth by 15 May 2022

via <https://qirt2022.sciencesconf.org/>.

Scope

The biannual Quantitative InfraRed Thermography (QIRT) Conference is a meeting of the scientific and industrial community interested and actively working in research, application and technology related to infrared thermography.

All conference topics are intended to quantitative results comprising temperature values as well as further parameters on the tested materials and structures. The latter ones are usually obtained through active thermography, e.g. by exploiting nonstationary heat transfer processes activated by additional heat sources or by considering wavelength dependent effects.

Passive and active thermography methods and technologies are spread now along a multitude of areas of applications, which all profit from each other.

Topics

- State-of-the-art and evolution in the field of infrared scanners and imaging systems allowing quantitative measurements, and related data acquisition and processing systems
- Calibration and characterisation of infrared cameras and related topics like certification, standardisation, validation, emissivity determination, absorption in media, translucent media, spurious radiations, three dimensionality of observed objects
- Characterisation of optical and further heat sources for active thermography
- Analytical and numerical modeling, data reduction, signal and image processing, artificial intelligence related to infrared thermography
- Application of infrared thermography to radiometry, thermometry, and physical parameters identification and quantification, in all fields: fluid mechanics, solid mechanics, structures and material sciences, non-destructive evaluations, electromagnetism, medicine and biomedical sciences, remote sensing, environment monitoring, industrial processes, multiscale, multispectral and other.

Key Dates for authors

Deadline for abstract submission: 1st March 2022

Acceptance notification: February 2022 - 8 March 2022

Deadline for booth reservation: 15 May 2022

Deadline for full paper submission: 31 May 2022

Deadline for author on-line registration : 15th June 2022

New dates

Submission Guidelines

You are invited to submit abstracts in accordance with the following guidelines:

- ✓ Authors may register more than one paper.
- ✓ English being the conference language, the contributions must be submitted in English. Translation into other languages will not be provided.
- ✓ All contributions must be submitted online at: <https://qirt2022.sciencesconf.org/> by **1st March 2022**.

Please submit a short abstract of 100 words within a two page extended abstract formatted according to the template which can be found on the conference website.

- ✓ Authors will be informed about the acceptance of their contributions by **8 March 2022**.
- ✓ Authors whose paper was accepted must register and pay the registration fee before 15th June 2022.

The registration is binding.

- ✓ Registrations of papers will only be considered if they are submitted together with all relevant data and the abstract.
- ✓ The full paper (in English) must be received by QIRT'2022 organizers as an electronic file by 31 May 2022.

Publication of Best Papers

After the conference, all papers will be evaluated by the QIRT Committees and the best papers will be published in the QIRT Journal.

These papers should not already be published in any conference proceedings or journals and the work should be original and new. A peer review process by independent, anonymous expert referees will be performed.

Student Award

The best student paper will be honoured with the Student Award. During abstract submission you can choose if your abstract is suitable for the student award.

The presenting student must be enrolled at a university and the presented work must be developed within their bachelor, master or doctoral thesis. Only one submission per student candidate is accepted into the competition.

Grinzato Award

The scientific paper will be honoured by the Grinzato Award. The nominees for the Grinzato Award will be announced by the steering committee according to the rating of the submitted abstracts.
